

ESCAPE MELBOURNE
WINTER

A photograph of a wooden deck overlooking the ocean. The deck is made of dark, weathered wooden planks. A simple wooden chair is positioned on the left side of the deck. In the background, the ocean is a vibrant blue-green color, and a small, hilly island is visible in the distance under a clear sky. The deck is framed by a rustic wooden structure with thick, natural tree trunks as posts and horizontal beams. Large, smooth boulders are scattered around the deck's edges.

Each of our exquisite properties has a pool (one is heated!), a deck with an incredible view to enjoy the sunrise or sunset, many shared and private spaces to reflect, read and nap, and access to our own private beach.

1:1 Massoga, Private Yoga classes and Full Body Massages are also available as optional upgrades.

This retreat is designed to provide you with the break you truly want and need in time commitment and budget. A whole week if you choose, or 4 nights if that's all you can spare. There are several pricing options available, and we do offer instalments plans if this suits you better.

THE PROGRAM

A retreat that cultivates flexibility in your body and in your schedule

This retreat allows you to design your experience with space each day to explore the island, time for yoga and meditation, **private massages and time to connect with nature.**

2 hour Massoga® Immersions and Slow Flow Yoga will be scheduled, as well as energising morning walks, hikes, daily meditation, a sound bath, create your own blend oils workshop, and of course, free time to explore the energy of the natural surrounds. All activities are optional.

If you decide to take a day trip around the island, **our on-site retreat chef** will make you a packed lunch to enjoy on your adventure. There are many incredible places to explore on the National Parkland of Magnetic Island.

Take your retreat on "me time": Arrive on Tuesday afternoon for a gentle welcome, or Wednesday in time for the first retreat activities. Depart on Sunday afternoon after the final activity, if you can't take an extra day from work on Monday. Or, **stay an additional night** on Sunday night to take in what you've just experienced - like a blissful savasana.
